

21 June 1978

NOTE FOR: ADDA

SUBJECT: Meeting for 10 a.m., Tuesday, 27 June
Implementation of Executive Order to Replace E.O. 11652

ATTENDEES: Mr. Malanick

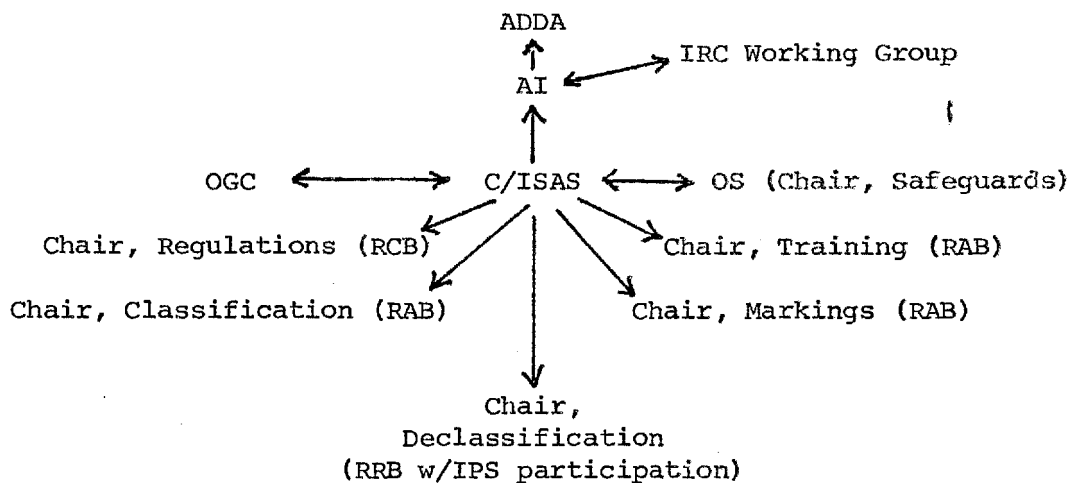

Representative from Regulations Control Branch

Representative from Office of Security

Mark, Hazel and I discussed a management plan for the implementation tasks and a preliminary schedule. We see the C/ISAS coordinating and managing the implementation.

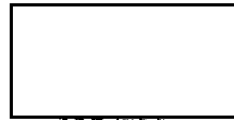

→ Management chain

↔ Coordinating or "work with" chain

The general sequence for these tasks might be:

- (1) Task forces recommend policy and options for the IRC Working Group in late August.
- (2) After guidance is received from IRC Working Group, the task forces proceed with implementation.

At this meeting on Tuesday, we recommend those responsible for tasks be charged with identifying the makeup of their respective task forces for your approval. A follow-up meeting in two weeks might be appropriate for them to present their recommendations.
